

**“When you know
the ropes . . .”**

and are thinking of additional rope-making machinery or replacement of existing plant, you consult Crossley's. The above is our Motor Driven Horizontal Type 3 and 4 Strand Laying-up Machine, suitable for laying Manila, Hemp, Jute, Sisal, Coir or Cotton. Usually used with two Stranding Machines. When it's Rope-making Machinery you require, get in touch with
